STEP 2 : Make us offer by bidding price

As the good point of this system.

You can try to bid it off as much as you want.

The only car price is NOT fixed. Because it is the auction.

However, another cost is possible to know before your bidding.

You might get a luck to buy it cheaper, it is up to your price.

We will only advice you how to purchased a car for real price from the auction.

A) Choose the car from the auction, and send us which unit you are interested in...

B) Calculate the Total cost to your destination.

CIF is main term and conditions of our business.

FOB + Ocean Freight + Marine Insurance = CIF

C) Make us offer by the bidding price.

The bidding price = Your total budget - (FOB charge + Ocean Freight)

The total price is calculated based on the following charges.

1. CAR PRICE: is the value of purchased for at auction as your bidding price.

2. FOB Charges: is indicated as FOB charge page.

3. Ocean Freight: is the cost of shipment, you can use this shipping calculator.
